1.0 Status of compliance with permit conditions [Permit Item IV.B.2(a)iv,v]

The City of Port Arthur developed and submitted a Storm Water Management Program (SWMP) and permit application form as required by the permit. The permit application was declared administratively complete and is currently under technical review. The permit number is TXR040143 for the City of Port Arthur. The City of Port Arthur is currently in compliance with the implementation schedules and measurable goals established in the SWMP as submitted.

2.0 Assessment of appropriateness of identified BMPs [Permit Item IV.B.2(a)ii]

The City selected the BMPs included in the SWMP based on the requirements of permit requirements included in each minimum control measure. The BMPs selected are currently considered appropriate for reducing the discharge of storm water pollutants. The SWMP was reviewed by the TCEQ to determine if the SWMP met the MEP. The City created an addendum to the SWMP in response to the TCEQ comments.

3.0 Progress towards achieving the statutory goal of reducing the discharge of pollutants to the MEP [Permit Item IV.B.2(a)iii]

The permittee has developed and is implementing a SWMP consistent with the six minimum control measures required for meeting the statutory MEP requirement.

4.0 Status of BMP implementation and assessment of appropriateness and effectiveness of BMPs [Part IV.B.2.(a)ii]

6.0 Status of any additional control measures [Permit Item IV.B.2(b)]

The permittee is currently implementing the required six minimum control measures and is not implementing additional control measures.

7.0 Any MCM activities initiated before permit issuance (first report only) [Permit Item IV.B.2(c)]

Prior to permit issuance the MS4s working as a coalition developed a complete outfall map of the Port Arthur urbanized area. The outfalls were located, photographed, and mapped with GPS and incorporated into a GIS project. The map will be used during Dry weather screening in years 2, 3, 4, and 5 of this permit term. The TCEQ was required to provide a general permit for Phase II MS4's by December 2002. The TCEQ executed its permit in August of 2007. The EPA mandated full development of the SWMP by March 10, 2008. Since the TCEQ recently provided a permit vehicle to Texas Phase II MS4's full implementation of the required six minimum control measures will be completed by August 13, 2012 in accordance with the requirements of the TCEQ permit.

8.0 Results of information collected and analyzed, if any, during the reporting period, including monitoring data used to assess the success of the program at reducing the discharge of pollutants the MEP [Permit Item IV.B.2(d)]

MCM	BMP	Records to be Maintained and Summarized in Annual Reports	Summary of Data
1	Flyers and Brochures	Estimated quantities of materials distributed or posted	Implementation Not Due
1	Impacts of Illegal Dumping and Littering	Estimated quantities of educational materials distributed to the public regarding the impacts of illegal dumping and littering	Implementation Not Due
1	Distribute Materials to Local Schools	The identities of the targeted schools and the estimated quantities of education materials distributed.	Implementation Not Due
1	Education of Construction Site Personnel	Estimated quantities of educational materials or guidance documents distributed	Implementation Not Due
1	Public Service Announcements	Number of different PSAs being aired by local media	Implementation Not Due
1	Storm Drain Stenciling/Appliques	Number of storm drains marked	Implementation Not Due

10.0 Proposed changes to the SWMP including changes to any BMPs or identified measurable goals that apply to the program elements [Permit Item V.B.2(f)]

The permittee currently has no proposed modifications to the Best Management Practices, Implementation Schedule or Measurable Goals in this minimum control measure.

11.0 The number of municipal construction activities authorized under this general permit and the total number of acres disturbed [Permit Item IV.B.2(g)]

The permittee has not selected to implement the optional seventh minimum control measure and will authorize municipal construction projects separately under the construction general permit. The permittee has conducted 0 projects that currently have permit coverage under the construction general permit. The total number of acres disturbed for the combined permitted projects is 0.

12.0 The number of non-municipal construction activities that occurred within the jurisdiction of the permittee (as noticed to the permittee by the construction operator) [Permit Item IV.B.2(h)]

The permittee has received 0 construction notices for construction activities occurring within its jurisdiction. The permittee will implement the construction site runoff minimum control measure according to the submitted implementation schedule. The implementation efforts include educating the construction community on submitting information and notices to the permittee during construction permitting process.

13.0 Notice that the MS4 operator is relying on an another government entity [Permit Item IV.B.2(i)]

The permittee is a participating member in the Jefferson County Storm Water Coalition and is responsible for implementation of the SWMP in its entirety. However some of the activities are being conducted as a group, such as the development of public education materials, development of ordinances, guidance documents and procedures. The coalition consists of the City of Nederland, City of Groves, City of Port Neches, City of Port

Arthur, Jefferson County and the Jefferson County Drainage District No. 7. The Jefferson County Drainage District No. 7 does rely on the Cities and County members of the coalition for enforcement of illicit discharge prohibitions, construction site plan review and inspections, post-construction control measures requirements and regulations. The Cities and County MS4 permit coverage areas completely contain the entire Jefferson County Drainage District No. 7 permit coverage area.
